

Logistics and transportation made easy

Technology Value Solutions

Sending back your off-lease equipment or getting rid of equipment that you no longer want is simple, right? Not exactly. Unless your company counts transportation among its core competencies, shipping computer equipment is not always hassle-free. You are unsure of whom to contact and how to get the best price, and your IT department is spending its valuable time researching options and packaging the products. To make matters worse, if your operations span several countries, your situation has just gotten more complex.

We can simplify it for you.

At HP Financial Services, packing and shipping are among our core competencies. And we can take those hassles off your hands quickly, economically, and safely.

Logistics and transportation made easy

Our Technology Value Solutions group has established relationships with some of the world's largest and most reputable shipping companies, allowing us to offer very economical pricing — whether your equipment is Compaq, HP or another manufacturer, whether it is leased or owned, no matter where it is going around the world.

Shipping technology products internationally can be a particularly convoluted process. There are layers and layers of documentation, tariffs, taxes and regulations that can bog down a shipment for weeks or even months. Our international shipping experts understand these issues and can reduce the time it takes to ship from months to just a matter of days.

The HP Financial Services advantage

- With the internationally recognized name of HP behind us, we are able to negotiate the most competitive contracts with some of the world's largest and most reputable transporters.
- We have the expertise to do overnight deliveries.
- We work with most modes of transportation, including trucking, marine and air shipping.
- HP Financial Services handles all freight claims.
- HP Financial Services offers full service around the world. From San Francisco to Singapore to Switzerland. We take the complexities of international shipping off your hands.

Key benefits

- Minimize risk of damaging your equipment during shipping
- Reduce time your IT department spends with administrative details
- Minimize time delays in overseas shipments
- Use one company for your worldwide operations

Who we are

HP Financial Services delivers a total "acquire-to-retire" suite of offerings that simplifies the entire IT financial lifecycle management process — from flexible acquisition alternatives to TCO-reducing asset management services to value-maximizing end-of-life solutions. As a wholly owned subsidiary of HP, Hewlett-Packard Financial Services Company is unmatched in the world, for both the capability and flexibility to deliver financial services that work the way you want to work, worldwide.

Put HP Financial Services to work for you. Call your Technology Value Solutions representative, or find us on the web at www.hp.com/go/hpfinancialservices.
